## Word from **Our Pastor**

---

I can't wait to get back to you all at St. Paul's on the 8<sup>th</sup> of September.

I move a little slower, but I still talk fast so it should balance out.

Over the last several weeks I've been watching more events on TV than usual. When my friend Richard was in town from Kansas, I got him hooked on Preacher. My brother and I watched nearly every Olympic event and Sarah, and I watched the democratic convention. I just finished watching the Little League World Series with Florida winning in extra innings over my beloved Taiwan.

Preacher is obviously a written story with winners and losers. In the case of this drama the entire town lost except Preacher, Tulip, who wanted some French fries, a vampire and Eugene who was visiting hell.

The Olympics had some unbelievable drama the best being the US Women's Rugby team that was losing with eight seconds left when a player for the US team broke a tackle and ran the length of the field for a bronze medal.

The funniest part of the convention was James Taylor being bumped because of time and later changed the words to one of his songs on a late-night show.

The Little League game went into extra innings and ended on a wild play where the Taiwanese pitcher threw the ball to first base but no one was there to catch it. (continued inside)
